

BRITISH LITERATURE ON EUROPEAN WILDFOWL 1957-1960

M. A. Ogilvie

THE Tenth Annual Report for 1957-58 (1959) included, at pp. 162-175, a list of books, papers and notes published in Britain in the years 1945-1957 and dealing specifically with the European Anatidae. The titles which follow form a first supplement to that list and cover publications in the years 1958 to 1960, with a few from 1957 not noticed previously. The titles are listed alphabetically by authors' names. Published details of wildfowl ringing are listed separately at the end.
